

# GROWSCAPE 2026

From grow pot and beyond,  
we simplify so everything  
works better together.

At Growscape, we're redefining what it means to be a partner in the lawn and garden industry. Born from the merger of two trusted leaders, The HC Companies and Classic Home & Garden, we've combined decades of expertise to create the industry's single leader in design, innovation, service, and manufacturing. While our name is new, our commitment to serving customers as our number one priority remains stronger than ever.

Rooted in the idea of growing together, Growscape brings you the very best of both companies: world-class U.S. manufacturing, global sourcing expertise, and a commitment to innovation and sustainability. We're proud to serve growers, retailers, and distributors across North America with a complete portfolio of horticultural and decorative products — from grow pots and planters to garden decor and more.

We stand apart with our world-class manufacturing capabilities, best-in-class sourcing, and a talented, passionate workforce dedicated to delivering excellence. Through strong customer partnerships and a customer service mindset, we ensure every interaction is defined by dependability, consistency, and care. We're investing even more in innovation, developing new on-trend products and operational solutions designed to help you grow your business efficiently and sustainably. Our focus remains on delivering the highest value — where price, quality, and innovation meet.

Our competitive advantages make us the supplier of choice:

- Unmatched service and dependability
- Consistent, high-quality products
- Domestic manufacturing and innovation
- Speed to market and on-trend solutions
- Import and contract manufacturing flexibility

From grow pot to patio and beyond, we simplify so everything works better together. Our mission is simple: to make life easier by leading the way in garden & decor with the most innovative and sustainable solutions.

## MANUAL AUTOMATED SOLUTIONS

Looking for significant labor savings without purchasing automated equipment?

For Easy Filling...

Lay tray/pot combinations next to each other and pour potting material over the top. Smooth out excess for quick filling.

1

Empty your box of 4.50 Square Quick Lock Pots (**SQQ04500**) onto a work surface so the bottoms of the pots face the sky. Remove the box.

2

Grab the accompanying tray (**TRK15451**) with the bottom facing the sky and firmly push against the bottom of the pots until you feel a "snap."

3

Grab the accompanying tray (**TRK15451**) with the bottom facing the sky and firmly push against the bottom of the pots until you feel a "snap."

## ARE YOU SUPPORTING YOUR PLANTS?

### Trellis Support Systems

A container trellis is a great way to merchandise vining and crawling plants at retail, while training the plant to grow vertically. They also help prevent vining and crawling plants from entangling during shipping.

### Support Rings & Cages

Plants with heavy flowers often utilize plant support rings and cages to help brace delicate stems from falling over and breaking. They also help protect the plant during shipping.

GREENHOUSE GROW POTS

  
 DID YOU KNOW? DID YOU KNOW?

Plant support systems encourage more uniform and healthy growth, ensuring the plant will grow optimally for the duration of the season.

Support systems are virtually undetectable due to their earthy green or black tones, which perfectly coordinate with lower stems and foliage.

## DID YOU KNOW?

Growscape fiber growing containers are produced using recycled newspaper in our closed-loop manufacturing facility in Canada to eliminate water waste.

They breathe like clay pots, provide the perfect environment for root development and insulation, are automation friendly, contaminant free, durable and in some cases, certified for organic farming.

# INTRODUCING KEYSTONE POT + TRAY SYSTEM

## WHY KEYSTONE?

- **Ship More, Spend Less:** Up to 20% better space efficiency per shipment means more live plants per truckload, reduced freight costs, and fewer carbon emissions.
- **Increase Profit Margins:** Cut logistics expenses without changing plant selection or greenhouse operations.
- **Supply Chain-Optimized:** Automation-ready for increased efficiency and stackable for smooth handling across growing, packing, and retail distribution.

## FEATURES & BENEFITS

- Tag Slots allow for easy insertion
- Shape & Size allows for maximized space saving
- Ability to print on every side of the pot
- PCR compliant per current known state legislations
- Multi-level drainage
